Sage Geyser Dec 12 1880

Captain

Your two notes to the Genl
came to hand last night & I opened them
as directed by the Genl who went the
night before last with 300 picked men
to give these fellows at Granada a
drubbing which I presume he has done
before this.

There is nothing new here.
Every place at Reno some was a few days
I have over 400 men here & am
impatient to be at them.

I have not before had an
opportunity to congratulate you on your
splendid victory which has no doubt
ended the military career of the C. R. K.

Respectfully

Your old comd

B. F. Hay
